Yes, you are on the right path, that is why that idea is memorialized in the master plan.

Thanks Pat, My thought is that if we can make that area work for parking and drop off, this could greatly reduce traffic on the other "narrow" streets. Ever the optimist.

Yes, we have talked about it and it is a viable idea. Ed code prohibits the exchange of property between public entities but our lawyers are confident that there is a way to facilitate this if the board and council agrees.

Has there been any discussion about a land swap with the City? I am specifically thinking of the land at the park that is adjacent to Morningside and the Adult school building all the way to Gould. Take a portion of that for parking and give City some of the flat park area.

Would this require a ballot measure?
