Greg, property tax rate may be high, but increases have been protected for nearly a half century due to Prop 13. In other words, not enough \$ is available for schools

Look at the beautiful brand new school in small Hermosa beach! Manhattan Beach needs to step it up big time!

Emily yes, that was a result of our bond issue a few years back - of which \$\$ were eaten away and significant delays based on lawsuits etc.. but the schools finally are done...

Haven't we put a lot of money into SEL? Maybe we should have focused on structural improvements first?

Katherine S. • Golden Hills

Dayna SEL is so important. Taking away money from mental health seems like the opposite of what we want to do nowadays. In fact, isn't that what you wanted just a few days ago? Increased support for mental health in order to help children who may become violent at their schools? Or am I misremembering? Besides, curriculum comes out of a different funding source than building repairs do, so you can't spend the budget from one on the other.
